

A Review of High-Flow Nasal Oxygen in Procedural Sedation

Thursday, February 26, 2026

4 pm PST / 6 pm CST / 7 pm EST

0.5 contact hour reportable as Class B CE (CRNAs),
0.5 contact hour non-CME (MDs/DOs/AAs)

Doug Massey
DNP, CRNA

This month, EIA will host a 30-minute session with Q+A reviewing anesthesia clinical paper, *Effect of high-flow nasal oxygen on hypoxaemia during procedural sedation: a systematic review and meta-analysis* (Thiruvengkatarajan et al., 2023, Anaesthesia), with Texas Association of Nurse Anesthetists Director Doug Massey, DNP, CRNA.

Doug is a Clinical Assistant Professor at the University of Texas at Tyler who provides clinical anesthesiology services at various facilities across Texas. During his presentation, attendees will also:

- Explore the mechanism of action of HFNO.
- Identify patients who may benefit from the therapy.
